

PETFINDER™ HELPS  
REUNITE DOG & OWNER  
SEPARATED BY  
HURRICANE KATRINA

## PETFINDER™ HELPS REUNITE DOG & OWNER SEPARATED BY HURRICANE KATRINA

*We are thrilled that pet FINDER™ has been the connection for many owners and their lost pets. But, nothing has pleased us more than the following note we received from former New Orleans resident Mary Dobson:*

*"Just wanted to let you know that we got the opportunity to really test the ability of your pet FINDER™ product when we had to evacuate our home in New Orleans without our beloved dog. Remembering that one of the main features was the ability to change the message and numbers, I immediately replaced the phone numbers I previously entered with the numbers where we are now staying. I didn't know what to expect...but within a few days we received a call from a shelter worker telling us they have our dog!"*

*"She told me that his tag (your pet FINDER™) had automatically connected her to us at the new number...She thought this was great because almost all of the dogs that have been coming into the shelter have had ID tags on them, but, as she explained, the contact info is no good, as our homes and communities were destroyed and they have no way to reach the owners. She even said the micro-chips they scanned in some of the pets did not help them, because like the tags the info was no good...and had not been updated.*

***"THANK YOU FOR HELPING US SAVE OUR DOG. YOUR GREAT PRODUCT MADE IT POSSIBLE."***

***■ MARY DOBSON, FORMER NEW ORLEANS RESIDENT***
